

F. ARID DATA FILES

This section contains a printout of the ARID data files submitted to AEC for the CTT inventory for Fort McClellan. The files were set up according to the guidelines in the *ARID Upload Instructions* (14 January 2003). The following files are included:

- Points of Contact
- Installation
- Range
- Munitions
- Ownership
- Land Use Restriction and Access Controls
- Range Demographics
- RMIS Site Information
- DSERTS Information

06/26/2003

DESCRIPTION:					

PUBLIC ACCESS DEFINITIONS

NPA = No Public Access: The public does not have any access to the range/site.
 LPA = Limited Public Access: The public does have some access to the range/site, but that access doesn't involve any digging, only surface access, such as livestock grazing or use as a wildlife preserve or refuge.
 RPA = Restricted Public Access: The public does have some access to the range/site and that access may involve some surface disturbance, such as agricultural use, forestry, recreation, and vehicle or supply storage facility use.
 UPA = Unrestricted Public Access: There are no restrictions on the use of the range/site (excavation is allowed).
